

# ICEBORN

Welcome to Iceborn 2.0! There are a lot of new layers to check out, all the jerseys and equipment are all grouped into their respective patterns and cuts, if it's not like that on your computer feel free to tweet at me @number9concepts and I'll try and help you out.

Please don't change the Iceborn branding. The point of this template is to be unique just for the community not for a reebok knock-off. If you have something you would like added please let me know and it can be in 3.0.
